Automat-it and Anodot: Tackling FinOps with AI, Up to 30% Time Savings

Automat-it

Automat-it, a respected AWS Premier consulting partner with expertise in DevOps and FinOps, offers a comprehensive solution to maximize cloud investment ROI.

The Challenge

Automat-it, an AWS Premier consulting partner specializing in DevOps and FinOps, is empowering its clients with Anodot's innovative CostGPT platform to deliver exceptional value. As the company grew, the demand for a more efficient, scalable solution for optimizing FinOps became evident. In response, Automat-it integrated Anodot's AI-driven CostGPT platform into its clients' daily operations.

The Solution

Anodot's CostGPT revolutionized Automat-it's approach to FinOps. The AI-powered platform provided Automat-it with a seamless way for its clients to access cost insights, onboard new FinOps engineers quickly, and make informed, data-driven decisions for their customers.

Results

"Our partnership with Anodot is a testament to our shared commitment to innovation in FinOps. Together, we're pushing the boundaries and addressing comprehensive FinOps solutions to the market."

Ziv Kashtan
CEO of Automat-it
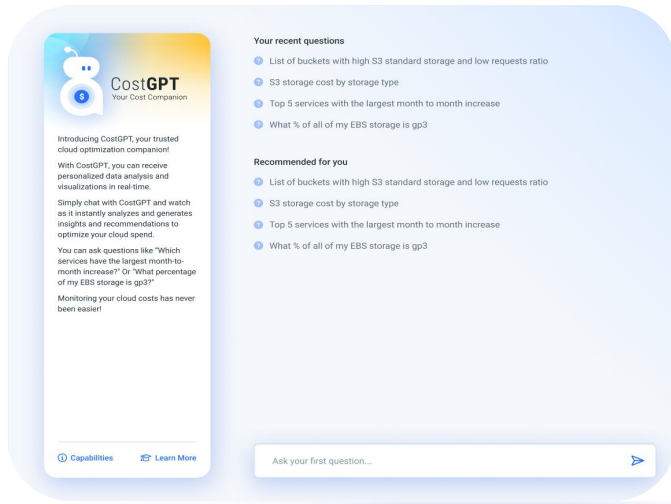

✔ **Effortless Cost Insights**

CostGPT's intuitive interface allowed Automat-it's clients to ask questions in plain language and receive instant answers, enabling them to identify key cost-saving opportunities.

✔ **Fast FinOps Engineer Onboarding**

 Automat-it's clients could now have new employees team members quickly become familiar with AIT's FinOps practices by leveraging CostGPT's knowledge base, making the onboarding process faster and more efficient.

✔ **Informed Decision-Making**

The platform provided actionable insights that "helped the team's clinets identify cost-saving opportunities and recommend optimal configurations" to their customers.

AI tool for Cloud Spending

Anodot's CostGPT revolutionized Automat-it's approach to FinOps. The AI-powered platform provided Automat-it with a seamless way for customers to access cost insights, onboard new FinOps engineers quickly, and make informed, data-driven decisions for their customers.

The Conclusion

Through its partnership with Anodot, Automat-it transformed its FinOps operations, realizing a 30% improvement in efficiency. The adoption of CostGPT not only enhanced internal productivity but also improved customer satisfaction by providing real-time insights and cost-saving opportunities. Anodot's AI-powered platform enabled Automat-it to deliver faster, more accurate support, making them a more agile and customer-centric FinOps provider.
